

The Centennial of the Gunn Memorial Library, 2008 - 2009

The Gunn Memorial Library, designed by Ehrick K. Rossiter and constructed by Dallas Wyant in 1908, celebrated its 100th Anniversary in 2008. The exhibition highlighted the history of the construction of this venerable building and celebrated all of its wonderful features. The Renaissance Revival period architecture, memorial

reliefs, sculptures, stained glass windows and [ceiling mural](#) by painter and Washington resident H. Siddons Mowbray all combine to make the Gunn Memorial Library one of Washington's architectural and cultural treasures.
